

VX-P820 Series

P25 VHF/UHF Portable Radios

SPECIFICATION SHEET

Smallest Submersible P25 Portable Radio

Includes APCO P25 interoperability combined with more advanced features not typically found in a radio of this size. Designed to perform in the most demanding and critical conditions, the VX-P820 Series gives you maximum radio performance for less in size and less in total cost of ownership.

P25 Digital Mode Capabilities

Expanded Signaling: Supports selective calling, Talk Group IDs (TGID), Network Access Codes, Individual ID lists and Paging Group lists for flexible communications.

Secure Communication (optional): Options available to support both Advanced Encryption Standard (AES) and Data Encryption Standard (DES) as required by APCO Project 25. Additionally, multiple encryption keys can be stored in the radio.

Mixed Mode: Seamlessly switch between analog to P25 digital mode on each channel based on call type received and on programming for transmit.

Enhanced Voice Quality: Featuring the AMBE+2™ Vocoder, get exceptional voice quality in both digital P25 and narrow-band modes of operation.

Connectivity Assurance: The RSSI warning emits an audible alert when the receive signal strength drops to a level not suitable for reliable communications.

Long-Lasting Power for Responsiveness

For maximum performance, the VX-P820 Series offers a choice of Li-Ion battery power up to 3000 mAh for up to 21 hours of battery life (per specifications).

Loud Audio for Noisy Environments

With 700 mW audio output, be assured of hearing critical information you need in most situations.

Intrinsically Safe

The VX-P820 Series is available in intrinsically safe options that meet the SGS requirements of ANSI/UL913 6th Edition for Class I, Division I, Groups A-D, Class II, Groups E-G; and Class III for use in hazardous locations.

When Safety Counts – Never Be Alone

The VX-P820 Series has Emergency notification that will switch to a designated channel and send an emergency alert. The radios also include Remote Listen which turns the radio on remotely if needed to check out what is happening near the radio.
