

Aviation Industry Communication & Hearing Protection

PELTOR

On The Ground And In The Air

3M™ Peltor™ has been a leading name in two-way communication headsets and protective earmuffs for over 50 years. By combining state-of-the-art electronics and hearing protector advancements, the 3M™ Peltor™ Aviation line has become a top choice for airport ground crews and pilots around the world.

Leading the Advancement of Hearing Conservation™

3M

Aviation Headsets

The 3M™ Peltor™ aviation headset line features a selection of products with excellent communication and hearing protection capabilities for pilots of personal propeller airplanes and helicopters.

Fixed Wing

3M™ Peltor™ ANR 9500 Headsets

use analog and digital active noise reduction for improved noise attenuation

This lightweight headset is designed for use with single/twin engine aircraft planes or helicopters (with additional adapter cable)

- Digital Technology for improved Engine & Propeller Noise reduction
- Single, Twin Engine or Helicopter Settings
- Noise-Canceling Gentex® Gooseneck Microphone
- Gel-Filled Cushions
- Folds For Storage
- Textile Headband Cover
- Durable Cables
- 5 year warranty
- Passive NRR 23 dB*****

3M™ Peltor™ 7000 PRO GT Headsets

Designed for pilots and passengers, the 7000 PRO GT delivers a high level of hearing protection, communication capabilities and comfort features.

- Lightweight Design
- Comfortable, Gel Cushions
- Noise-Canceling Electret Gooseneck Mic
- Carrying Bag Included
- NRR 25 dB*****

(shown) 7000 PRO GT
Also available:
7000 Sport LE
Audio Jack
7000 PRO GTH
for helicopter pilots

Helicopter

NEW 3M™ Peltor™ Hummingbird™ Headset

designed for low-impedance helicopter intercom systems

This new headset leads the 3M Peltor line of helicopter headsets with advanced comfort and performance features.

- Twin Cup/Double Shell Earcup Design Provides High Attenuation
- Top Exit Cables Allow For Easy Connection To Overhead Intercoms
- Coiled Cables Extend for Console-Mounted Intercoms
- NRR 25 dB*

(shown) MT72H540F-91
Hummingbird
Helicopter Headset

NEW 3M™ Peltor™ 8103 Headset

with ambient-noise compensating microphone

The 8103, with its dynamic differential microphone, is specially designed for low impedance, helicopter intercom systems.

- Compatible with most low impedance intercom systems
- Broad, Covered Headband with Two-point Suspension for Seal and Comfort
- NRR 25 dB*

(shown) MT52H79F-03
Helicopter Headset

Ground Mechanic/Push Back Headsets

Peltor™ Ground Mechanic Headsets are designed to provide clear communications and comfortable hearing protection during high noise push-back and ground support operations in many climate conditions.

Wireless

3M™ Peltor™ WS Headsets

With Bluetooth® Technology

Freedom from clumsy wires and cords provides ground crews with increased mobility and efficiencies during push-back and other functions. Welcome to the wireless world.

- Simple & Easy Connection Between Headset and Adaptor
- Cockpit Communication Range of up to 32 feet
- High Attenuation Earcups Helps Protect and Ensure Clear Communications
- Noise-Canceling Microphone Helps Prevent Ambient Noise Disturbance
- Bright Neon Color
- NRR 25 dB (Over-the-Head)*****

2-Way Radio Headsets

an innovation in integrated communications

All-in-one communications, the PowerCom™ line of headsets is an efficient alternative to belt radio models.

3M™ Peltor™ PowerCom™ Headset

The PowerCom headset revolutionized two-way communications. Features include:

- No More Wires or Belt Radios Required
- Up to a 2-Mile Range
- 22 Pre-Programmed Channels
- VOX and PTT Transmit
- Privacy Channel System (CTCSS Tones)
- Noise Canceling Boom Electret Microphone
- NRR Up To 25dB (Over the Head)*****

3M™ Peltor™ PowerCom™ PLUS Headset

Includes all PowerCom features PLUS:

- Level-dependent Microphones for Ambient Listening
- 22 Pre-programmed Channels
- Factory Mutual Certified Intrinsically Safe**
- 22 Pre-programmed Channels From 462-467 MHz
- 38 Privacy Channels (CTCSS Tones)

3M™ Peltor™ PowerCom™ PLUS II UHF 2-Way Radio Headset

Includes all PowerCom features PLUS:

- Level-dependent Microphones for Ambient Listening
- UHF Band with Up To 30 Programmable Channels (430-470 MHz)
- Factory Mutual Certified Intrinsically Safe***
- 121 Privacy Channels (CTCSS & DCSL Tones)
- Programming Compatible with Repeaters

QUALITY ACROSS THE LINE.

3M™ Peltor™ headsets and earmuffs are known for many performance and comfort features including:

- Padded Headbands with two-point suspension for comfortable, pressure distribution and easy height adjustment on headband versions.
- Wide earcups with liquid & foam-filled cushions are designed to provide long wear comfort and optimum seal.
- Microphones with noise-cancelling design for communication clarity. Microphone positioning can be easily adjusted.
- Earcup microphones featured on some models provide omni-directional ambient listening and controlled amplification.
- Flexible, insulated connection cords feature durable, long wear polyurethane.

Push-To-Listen Headsets

3M™ Peltor™ PTL™ Earmuffs

provide safe attenuation with the push of a button

The practice of “lifting off” an earmuff to hear can compromise attenuation and protection for wearers. 3M Peltor’s PTL earmuff helps eliminate this problem by allowing “outside the muff” sounds to be heard clearly when needed.

(shown) H7A-PTL
Headband Model

- Earcup Button for Listening Mode
- Listen-through Capability with the Pass-through Sound Limited to 87 dBA
- Auto-Switches to Full Protection (NRR 26 dB*****) After 30 Seconds or When Button is Pressed Again
- Comfortable Liquid/Foam Filled Earcup Cushions

Hearing Protection Earmuffs

3M™ Peltor™ Optime™ 105 Headset Bright Neon

For extreme noise levels up to 105 dB

The Optime™ 105 features a “double shell” earcup design (two cups connected via a foam inner layer to reduce structural resonances) to provide more protection against noise than an earmuff without the “double shell” earcup design. High frequency and low frequency noise.

(shown) H10A-HV
Optime™ 105
Headset Bright Yellow

- Lightweight Design
- Comfortable Liquid/Foam-Filled Earcup Cushions
- Pivoting Earcups
- Twin Cup Model Features a Unique Double-Shell Design for Added Protection in High Noise Areas
- NRR 30 dB*****

*Tested in 3M's NVLAP accredited laboratory

**Factory Mutual Approval: Intrinsically safe for use in Class I, II and III, Division 1, applicable Groups C, D, E, F and G, Temperature Class T4, Ta=55°C Hazardous (Classified) Locations in accordance with User Manual FP3581

*** Factory Mutual approval: Intrinsically safe for use in Class I, Division 1, Groups A, B, C and D; Temperature Class T4, Ta=60°C Hazardous (Classified) Locations in accordance with User Manual FP3609

**** Factory Mutual Approval: Intrinsically safe for use in Class I, Groups C and D; Class II, Groups E, F and G; Class III:

Intrinsically safe per User Manual FP3618 when powered by two "Phillips" R6 1.5 Volt AA carbon-zinc batteries, "Duracell" LR6 1.5 Volt AA No. MN1500 alkaline batteries or "Duracell Procell" LR6 1.5 AA No. PC1500 alkaline batteries. Temperature Code T3C (160°C), Tamb=-20°C≤Ta≤+55°C.

*****Research suggests that many users will receive less noise reduction than indicated by the NRR due to variation in earplug fit. OSHA recommends that the NRR be reduced by 50% when comparing relative effectiveness of hearing protection devices and engineering noise controls.

***** Only 8 pre-programmed channels – Rechargeable battery pack not included.

⚠ WARNING!

These hearing protectors help reduce exposure to hazardous noise and other loud sounds. Misuse or failure to wear hearing protectors at all times that you are exposed to noise may result in hearing loss or injury. For proper use, see supervisor, User Instructions, or call 3M in U.S.A. at 1-800-665-2942. If there is any drainage from your ear or you have an ear infection, consult with your physician before wearing ear plugs. Failure to do so may result in hearing loss or injury.
