

Zscaler Internet Security

Connect Confidently to the Internet

Combined with Cradlepoint cloud-managed networking solutions, Zscaler Internet Security enables enterprises to embrace cloud applications and mobility, while delivering a superior user experience. Configured in minutes, Zscaler Internet Security leverages the threat intelligence harnessed from the Zscaler cloud. Now any business, regardless of size, can connect to the Internet with confidence.

BENEFITS:

+ Ease of Deployment

Configure in minutes and filter domains for all Internet connection requests by intelligently routing traffic to permissible Internet sites and blocking access to known malicious/unauthorized sites.

+ Secure Everywhere

Transparently enforce security & corporate policies from any device without impacting end-user experience.

+ Protect Your Business

Limit liability by filtering malicious sites and provide instant protection against malware, botnets, adware, phishing attacks, and suspicious destinations.

+ Manage Centrally

Select one of four risk tolerance settings to instantly enforce common policies. Alternatively, select specific Internet browsing categories to create a custom policy.

+ Consolidate Visibility

Intuitive dashboard provides instant insight into malicious activity and Internet browsing trends.

+ Scale Quickly

Cloud deployed and managed with no patching, no updates, and no buying excess capacity. Scale as you need capacity.
