

Panasonic recommends Windows 8.

THE E-TOOL YOU CAN COUNT ON IS NOW AVAILABLE THROUGH AFWAY.

Now on the AFWay E-tools contract, the Panasonic Toughpad™ FZ-G1 tablet is the rugged and reliable e-tool that allows Air Force maintainers and specialists to access and update technical orders in real time, complete work orders on-site and eliminate the need for paper-based forms. Helping to make maintenance and operations more efficient is how we're **engineering a better world.**

DURABLE E-TOOL SOLUTION

With a MIL-STD design, daylight-readable touchscreen and numerous integrated features, the Toughpad FZ-G1 enables maintainers to address inspections and repairs in virtually any environment.

- Intel® Core™ i5-3437U vPro™ Processor
- Windows® 7 and 8 OS available and fully SDC/AF network approved
- 10.1-inch HD daylight-readable touchscreen
- Fully sealed and integrated CAC reader
- Embedded LAN port
- Removable/interchangeable battery
- 128GB SSD with 4GB RAM
- ThreeBond screw sealant applied to all external screws
- Three-year Ultimate Care (Accidental Damage) coverage

TOUGHPAD FZ-G1

MIL-STD-461F approved at WP AFB

- CONUS: \$2,133
- OCONUS: \$2,176

THE TOUGHPAD DIFFERENCE

Higher Quality Control

Panasonic designs and tests its products and key components in-house for maximum quality control, consistency and parts availability.

Lower TCO

Panasonic computers average a 20% lower total cost of ownership over five years when compared to commercial-grade competitors.

Faster Service and Minimal Downtime

- World-class service and support to ensure you stay up and running
- Three-year limited warranty compared to the standard one-year warranty offered by most commercial-grade tablet manufacturers
- 24/7 technical support hotline and website
- Industry's best repair time of less than two days on average
- In-warranty repair with no charge for shipping from our National Service Center
